

# FURLBOOM

PERFORMANCE REEFING SYSTEMS

Australian Brad Burke's Buizen 48 *Foxy Lady*, equipped with a Furlboom, won her division of the Millennium Odyssey Canarias from Jerusalem to Rome by way of Gibraltar, Panama, Tahiti, Australia, Singapore and the Red Sea.

## A Revolution in Mainsail Furling

Furlboom™ is the most effective answer to the complexities of mainsail handling available today. The Furlboom™ in-boom mainsail reefing and furling system is one of a kind. Its ease of operation, safety and superior performance is revolutionizing sailing. Yachtsmen around the world are now enjoying the benefits of Furlboom™.

- **Lightweight, unobtrusive, tapered design**
- **Available for yachts from 30 to 60 feet**
- **Maintains and enhances the performance of a fully-battened mainsail**
- **Allows for conventional cut and shaped mainsail with roach**
- **Safe and easy to operate under all weather conditions, even when short-handed**
- **Self-adjusting outhaul**
- **Easily retrofits to existing masts!**
