

For more than a half century, Pompanette has been producing products which "fit" the grandeur of the boat builders' vision. We continuously work hand-in-hand with every boat builder and boat owner to ensure that our designs meet their expectations and respond to their needs. This kind of working relationship has resulted in our extensive line of product offerings that run from traditional to cutting edge in appearance.

Pompanette would like to take this time to thank you for your loyal support over the last 70 years. Because of your continued support we have earned the reputation as a supplier of world class sportfishing equipment and yacht accessories. Your loyalty to our products confirms the reliability that the name Pompanette has come to stand for. Working together we will continue to develop the most advanced products available in the market.

For more information on Pompanette please call or stop by one of our showrooms, located in Fort Lauderdale, Florida and Newport Beach, California. While there you might see some new faces, but you will recognize the same great sales support and customer service we are known for.
